Read the following passage to answer the questions:

The Bermuda Triangle

The Bermuda Triangle is an area of water in the North Atlantic Ocean that stretches from the island of Bermuda to Florida to Puerto Rico. Since the 1940s, a large number of planes and boats have mysteriously disappeared in this area. In many cases, these planes and boats were traveling in good weather conditions without any known problems, when they suddenly disappeared and were never seen or heard from again.

Over the years many people have tried to explain the strange disappearances. Some say that there must have been sudden storms or bad weather. Others say that gases in the water might have caused boats to sink. Some people even say that aliens are responsible. Scientists have been unable to agree on why so many boats and planes have disappeared in this area. But, one thing is for sure—until an explanation is found, people will continue to wonder what mysterious things are happening in the Bermuda Triangle.

Questions:

A. Put (T) for true sentences and (F) for false ones:

- 1- The Bermuda Triangle is an area of land. ☐ T ☐ F

Reading Comprehension (2.5 marks)

Read the article then answer the questions:

Are you thinking of buying a used car? It isn't as easy as you might think. There are a few things you should know about and do before you spend any money. When you get to the car dealership, check the label on the car's window and read the price of the car. Check to see if they give you any other information about the car. Was it in an accident? Does it need to be repaired? If something goes wrong during the first six months, will the dealership fix it for you? These are very important questions to consider.

You need to look for other things, too. Did the previous owner take care of the car? Check to see how much oil is in the car right now. And most important, take the car for a ride. How does it drive on the city streets? How does it drive on the highway?

If you can, have a mechanic look at the car before you buy it. He will be able to tell you if there are any problems that need to be fixed before you buy it.

The last thing you need to do is read the contract very carefully before you sign it. If you aren't sure about something it says, ask the salesperson what it means. Make sure you get everything they promise to give you in writing. After you do all these things, you will be ready to buy the car. Oh yes, one last thing, remember to keep **backup** of everything you sign.

A- Put (T) if the statement is correct and (F) if it's incorrect:

1	Before spending any money there are a few things you should know about and do.	
2	You don't need to read the contract before you sign it.	

B- Answer the following questions:

1- What should you have a mechanic do?

.....

2- The meaning of the word (backup) is:

a- copy

b- help

c- resources

Vocabulary (2.5 marks)

A. Match the words with its meanings:

1	filthy		broken
2	torn		very dirty
3	crashed		shredded

Question 1:

Read the following then answer the question:

. People need food, water and air, which are all essential for survival. They cannot live without food to eat and oxygen to breathe.

Hundreds of years ago, it was easy to get food and housing. The population was low and there was little industry. There was enough good land, clean water and fresh air. However, in the eighteenth century, the industrial revolution began in England. The western world changed from an agricultural world to an industrial one. Many people moved from villages to cities in order to work. Industry grew very quickly. Since 1850, both the population and industry have increased very rapidly. People need more land; more water and more resources daily. Industry affects the environment. Some of the effects are harmful, such as pollution.
