You can answer these questions in your paragraph:

- 1- Who is your friend?
- 2- What do you like about your friend?
- 3- What are the characteristics of your friend?
- 4- Are there similarities between you and your friend?
- 5- Are there differences between you and your friend?

Q2- Reading Comprehension

9

Read the passage then answer the questions:

Lucid Motors is a cars **company** that makes electric cars. These cars use batteries instead of fuel, so they do not cause pollution. Lucid is known for building fast, powerful, and luxurious cars that are also good for the environment. Saudi Arabia has become an important place for Lucid because the country wants to use more clean energy and create new industries as part of its Vision 2030 plan.

In 2022, Lucid opened its first showroom in Riyadh, where people can see and learn about its electric cars. Then in 2023, Lucid opened a big factory in King Abdullah Economic City near Jeddah. This is Lucid's first factory outside the United States. The factory, called AMP-2, can build about 5,000 cars every year now, but it plans to grow to make up to 155,000 cars in the future.

Lucid's most popular car is the Lucid Air, which can travel more than 800 kilometers on one charge. It is very comfortable, full of new technology, and designed for luxury. Many people in Saudi Arabia are interested in Lucid cars because they want modern, eco-friendly cars.

Lucid's success in Saudi Arabia shows how the Kingdom is becoming a leader in clean energy and innovation. The company is helping create a future with less pollution, more local jobs, and smarter transportation. Lucid is not just making cars — it is helping build a cleaner and brighter future for Saudi Arabia and the world.
